

Port Bouvard Homes.

Port Bouvard Homes is a family run business that has been operating in the Mandurah and Rockingham region for over 20 years.

We have undertaken many and varied construction projects throughout these years including offices, warehouses, recreational facilities, retirement villages, restaurants, retail building and architecturally designed residential housing.

Our specialty is residential construction, catering to the needs of the first home owner right up to architecturally designed masterpieces. We pride ourselves on providing our clients with a good quality product at a reasonable price and on time.

Because we are a small family run operation, we believe this allows us to provide a more personalized service to our clients and quicker building time frames.

The Team

The founder and owner of the business, John Jacobs, have 40 years' experience in the construction industry and is a Member of the Australian Institute of Engineers.

Meet the Port Bouvard Team:

Will Jacobs – Construction Manager, Member of Australian Institute of Engineers

Gary Jacobs – Building Supervisor

Jason Cotter – Estimator and Chief Draftsperson

Joanne Housego – Office Administrator, experienced in the property and finance sector.

Will Ridge – Draftsperson

Byron Lathwell -Sales Executive, Diploma of Property (Real Estate)

Port Bouvard Homes is also a Platinum Member of the Housing Institute of Western Australia.

Design Service

We can build off your own architectural plans or you can choose from our own range of one and two storey off-the-plan designs. Our in-house drafting service can work with you to modify one of our own designs to suit your budget and personal requirements.
